EDUCATION

Marmara University

Mechatronic Engineering

Istanbul, Turkey

Graduation Date: Mar 2021

WORK EXPERIENCE

Gensys Automation & Machine Vision

Machine Vision Engineer

Gebze, Kocaeli

Dec 2021 - Present

- I learned Thermal Imaging and Automation fundamentals.
- Wrote programs in various languages, including C# and Halcon, to produce solutions for projects.
- I developed an NDT(Non-Destructive Testing) project for use in various industries from top to end.
- I mainly used SQL, C# and Halcon, but I also have minor HTML and CSS experience.

Mavis Machine Vision Software

Intern

Gebze, Kocaeli

Jul 2020 - Mar 2021

- I learned the fundamental of Machine Vision, industrial cameras and OOP with C#
- I got to know camera and lens technologies more closely. I learned how to work as a team and the importance of code readability in business life.

LEADERSHIP EXPERIENCE

Quas Robotic

Owner

Feb 2020 - Jan 2021

- We started our Startup project with the project we did in the field of "Industrial measurement with image processing", which is our final project topic. I worked on the image processing software of this project. We participated in the entrepreneurship support programs of universities in order to produce the prototype of our product. We made negotiations with domestic and foreign companies, but we could not reach the desired result. Even though it was a negative attempt, we had a good work experience.
